

1969 Pontiac GTO

- Factory Air Conditioning, just tuned up, works well
- Power windows
- Power driver seat (motor works, seat does not move)
- Power steering
- Power front disc brakes
- Power top (a little weak, but works)
- Factory Cruise (unhooked at this time)
- LED headlamps and brake lamps
- Parade Boot

Known Issues:

- Paint is driver quality. Not original color
- Air shocks have a slow leak, New pair of shocks in the trunk
- Rear view mirror needs to be adjusted, it wobbles.
- Left blinker doesn't "blink"
- Some rear lighting should have some bulb seats replaced (but currently have LEDs)
