## How to Request a State Vehicle Record

### Colorado

Customers can request vehicle record information by completing a DR2489A and submitting \$2.20 for the record search. Information can be found at Vehicle Record Searches | Department of Revenue - Motor Vehicle (colorado.gov)

### Pennsylvania

If you are the owner of the vehicle, you may purchase a vehicle history by downloading a Request for Vehicle Information (DL-135) from PennDOT Driver & Vehicle Services. Click on "Forms and Publications", "All Motor Vehicle Forms, Publications and FAQ's," and DL-135. Forms must be mailed to PennDOT for processing.

Summary

FRONT BRAKE ROTORS

Consequence

THE FRONT DISC BRAKE ROTORS CAN EXPERIENCE SEVERE CORROSION IF OPERATED FOR AN EXTENSIVE PERIOD IN THE SALT BELT. THE REDUCED STRENGTH CAN ALLOW THE CAST IRON WEAR SURFACE TO SEPARATE FROM THE HUB, REDUCING THE BRAKE EFFECTIVENESS OF THE VEHICLE.

Remedy

DEALERS WILL REPLACE THESE ROTORS WITH ROTORS THAT ARE COATED WITH A CORROSION PROTECTION.

**Disclaimer:** The information contained in any report and on our website is not necessarily 100% accurate, complete or up to date, nor a substitute for your own due diligence. Our data comes from a wide variety of sources, but some municipalities and jurisdictions are slow to report and digitize their data, so we cannot guarantee or warrant full accuracy of ALL search results. This report does not contain detailed information regarding a vehicle's repair history nor information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided by states is provided in a variety of time frames; while some states report and update data in "real-time" (as title transactions occur), other states send updates less frequently.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company to be a "total loss" or branded by a state titling agency.

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, users are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage.

It may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.

Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.

The information used to compile this report is aggregated from various government agencies, non-profit organizations, and industry sources. The accuracy and reliability of the information supplied depends primarily on the reporting sources, and all entities involved in compiling this report accept no liability for any errors or omissions.

**NMVTIS Disclaimer:** The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and **brand** history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because **some states** are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The **Approved NMVTIS Data Providers** (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

### Consumer Access Product Disclaimer

NMVTIS data **INCLUDES** (as available by those entities required to report to the System):

- Information from **participating** state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit **[www.vehiclehistory.bja.ojp.gov](http://www.vehiclehistory.bja.ojp.gov)** for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.
